\$408,000

THERE ARE PLENTY OF good reasons to enjoy your life in this perfect family home. Big 4 bay shed (3 doors) with high clearance and super large annexe - more shed space than you could dream of. Always a cool breeze coming through the home and the verandahs on both sides make great outdoor living as well as shading the home from the sun. NOTHING HAS BEEN MISSED in this beautifully presented home located so close to schools and with access from both front and rear street streets. This really good accessibility make this 582 sq. metre lot so functional and flexible. This home has a comfortable freshness that will always please. Check out the space, built-in main bedroom and air-conditioners in all three bedrooms plus a big one in the lounge. SECURITY SCREENS right round on both windows and doors are a great benefit. Between the shed and the house is a private back garden that is like a big private courtyard with the stunning in-ground pool as the centre piece. THE SHED has high clearance and has doors both sides for maximum ventilation and flexibility of movement. Forget the power bill pain. The large solar array on the roof will put a smile in your budget. TAKE THE TIME TO INSPECT. Call your real estate professional today.
