Offers invited

A solid constructed freestanding townhouse with low-maintenance paved courtyard all within walking distance to the local primary school and well-established Frankel Street specialty shops with public transport metres away. 3 bedrooms with built-in robes, master with ensuite and open-plan kitchen dining. Perfect for a first home buyer to enter the market or a small family. Patience can be a virtue in a market where location, low-maintenance living and affordability matter. Direct internal access into the homes from the double garage, an asset on those wet winter days and privacy. Solar panels keep the cost of living down while having the thoughtful addition of ducted dual air keeping everyone in their room comfortable while having the courtyard to entertain. Fixed lease in place until September 2024.
