Offers Over \$749,000

This home offers up the opportunity to join a cluster of outstanding residences in niche pocket of Newstead real estate. It's four bedrooms and three living areas is an obvious attraction to the growing family and the under house area throws even more possibilities your way, the home is heavily engineered making it a very solid construction. The central hub of the home consists of an expansive kitchen, large dining space and casual living area. Huge windows offer not only plenty of bright sunlight but supple views across Launceston to our neighbouring mountains. Those living areas will be attractive to the family with teenagers, giving them their own space while the four bedrooms and two bathrooms only add to that. Internal access to the home from the double garage offer security and convenience but it's the enormous internal space adjacent which it's uses will only be limited by your imagination. Under 10 minutes to Launceston CBD, Scotch College within walking distance and Newstead Shopping strip a mere 3 minutes away.
