Jellis Craig Castlemaine is proud to present this early brick Colonial miner's cottage, born out of the region's old gold beginnings. In addition to being absolutely gorgeous, this property boasts excellent investment credentials; a desirable heritage home on a large block oh so close to Castlemaine. Sitting on 1,070 sqm, enjoy this picturesque setting with established trees or contemplate options to extend or subdivide in the future (STCA). Arawa Cottage is extra charming thanks to its cream stucco exterior and curved front verandah with a tin roof. Imagine the conversations that have been held here over the years. A cellar is a rare and special feature to discover within. This precious link to Castlemaine's past has been lovingly cared for, featuring a fresh white paint scheme throughout, contrasting beautifully against the original Baltic pine floorboards. The traditional floorplan offers three front bedrooms, a cosy central living room and a rear kitchen and bathroom. The eat-in country style kitchen is as charming as they come with panelled timber cupboards, an upright gas stove and pantry. The bathroom is likewise neat and serviceable with a bath, shower, vanity and loo. A rear sunroom provides a second living area that then spills out onto the wide verandah for outdoor entertaining. A large garage, carport and woodshed are more notable features of the property. Main Road is just a few minutes' drive from Castlemaine's town centre and train station with V/Line services to Melbourne and Bendigo. What a charming, comfortable and convenient place to call home!
