This property gives you that hidden, private rural feel, the driveway is all weather and accessible with a line of native timbers on either side as you travel the along the driveway. At the far end the property expands out into 27 acres of land which is all timbered with undergrowth and tall trees, so find a spot you like and choose the perfect location for your home. Spend your weekends exploring the surrounding areas or enjoy your own slice of paradise without the noise of neighbours or the bustle of city life.
