\$750,000

The property has several attractive features: **Rock Solid Construction:** The house is well-built and sturdy. **Four Bedrooms and Two Bathrooms:** This provides ample space for a family or guests. **Circular Driveway with 2 Accesses:** This adds a practical and elegant touch to the property. **Access to a Large Backyard:** This is great for outdoor activities, gardening, or potentially even expanding the property. **Brick Shed with Roller Door, Concrete Floor, and Power:** This adds functional space for storage, a workshop, or other purposes. **Large Kitchen with Overhead Cupboards:** Kitchen space is crucial, and overhead cupboards contribute to efficient storage. **Wood-Fired Heater:** A wood-fired heater is functional for heating and can also add a cosy and rustic atmosphere to the home. **Huge Walk-in Pantry:** This is a desirable feature for those who enjoy cooking and need additional storage for pantry items. **Open Living Space:** This design is popular for creating a spacious and interconnected feel in the home. **Separate Formal Lounge with sliding doors:** This adds a touch of elegance and provides a separate space for more formal occasions. **Large Undercover Patio/Outdoor Entertaining Area:** This is great for enjoying outdoor activities regardless of the weather. **Established Fruit Trees:** This is a bonus for those who enjoy gardening and fresh produce. **2072sqm Block:** The large block size provides plenty of space and potential for landscaping or other outdoor activities. Overall, the home seems to offer a combination of practical features, comfort, and outdoor amenities, making it appealing to potential buyers or residents
