This beautifully improved three-bedroom family home gives indoor-outdoor entertaining a distinct family focus. Its central feature is a north-facing alfresco setting. An undercover terrace extends from the meals area, before leading onto an adjoining patio and central veggie garden. The area is framed by open lawns set against a high garden wall. The recent renovations are most evident in the remodelled kitchen. Fabulous finishes include new bench tops and stainless-steel appliances. Accommodation is met by three bedrooms with BIR, a central bathroom finished with floor-to-ceiling tiling and a frameless rainfall shower and separate toilet. Features include ceiling fans, ducted heating, block-out blinds, shed, and living room A/C. Positioned around the corner from The Pines Flora and Fauna Reserve, and Carrum Downs Plaza, the property positions Carrum Downs SC, local schools, and key arterial roads close-by.
