Positioned on its own corner title of approx. 395 sq.mt. (no Owners Corp), this exceptional townhouse could be better described as a low maintenance residence offering independent living in a great location. Extra wide entrance hallway leads to two huge bedrooms, the master particularly large with sizeable walk-in robe and direct bathroom access. The second bedroom would also easily fit the largest bed and has a full wall of built-in robes. Through to the delightful open-living space that in turn flows on through double cedar French doors to alfresco undercover outdoor entertaining. Split system air conditioning, plus direct internal access to lock-up remote garage. The spacious well established treed gardens enjoy both a paved area and separate grassed space. Currently leased to excellent tenants @ \$370 pw until July next year. In all a very unique property that's sure to impress.
