This stunning slice of history could be yours! Built Circa 1890, this home dons all the beautiful architectural design elements of a late 19th-century build, while blending seamlessly with the technology and comforts required for 21st-century living. The five generously sized bedrooms are fit for royalty, all featuring ceiling fans and built-in wardrobes, while two have the luxury of a built-in fireplace. Central to the main bedrooms, the family bathroom contains a separate shower, bath, and single vanity. A second bathroom is at the opposite end of the house, accompanied by a second kitchen and living area, making it the ideal location for a parent or guest wing. The home's living areas are grand and unlike anything in a modern home! Every member of the family is sure to find their own retreat. The high ceilings, timber floors and large windows bathe the home in natural light, evoking a sense of space and warmth. The kitchen blends modern design and appliances with accents of days gone by. It offers a traditional combustion stove, a modern induction cooktop, expansive bench space and vast storage options. For those beautiful warm days and Summer evenings, the covered timber deck overlooking the heated, salt-chlorinated pool and nearly every inch of your one-plus hectares is the ideal place to relax and unwind or entertain guests. Other notable features of this home include a 9 x 11m storage space, brand-new ceilings, new lighting and electrics, and fresh insulation and paint throughout.
