Frank Schembri

\$280,000

This 22 acre rural block has a lot more going for it than meets the eye. Located at the front of a three block sub division, this would make the perfect spot to build your rural dream home. With literally acres of land for the kids to grow up and explore, this is a rural block that defines the real estate term blank canvas. A bush block with natural vegetation ideal for the new owners to clear just what you need and retain the natural beauty of rural living with the privacy and sounds that only mother nature can provide. An opportunity for the horse lovers to create the paddocks you've wanted and still retain shade for your beloved equines. There is also space enough to layout the BMX track for the kids and build the workshop you've always wanted. All of this awaits and is positioned only 5 minutes from Berry Springs Shopping Village and just over 40 minutes from Darwin CBD if you ever have the inclining to drive into town.
