This family home is privately situated in Kettering still within walking distance to the shops and cafes in the township. The tall established trees at the front of the property ensures peacefulness and tranquillity. There is just under 2 acres of cleared land that is neatly kept. It is all well fenced, has a dam and is level to gently sloping and in a predominantly northerly aspect. The home itself is all on the one level, so no steps. The floor plan is very versatile and has multiple living options. A timber kitchen has loads of bench space and room to cook in and the adjacent dining room has enough space for a decent size table for family or guests and friends to gather. Both wood heating and a Daikin heat pump take care of your heating requirements. Accommodation offers 3 bedrooms all with easy access to the big main bathroom and the study or possible 4th bedroom is also of a good size. The garage makes bringing the shopping home and straight inside the house a breeze and still has some space for tool storage. The home is double brick and built on a concrete slab so solid construction is assured. Easy care gardens are delightful and a classic area to set up your bbq and outdoor entertaining. Sealed main roads lead to the property and the Oyster Cove Inn and popular Kettering marina and eateries are conveniently close by. The home has not been on the market for over 30 years and is undoubtedly going to be one on your real estate short list. Keep an eye out for upcoming open home times.
