Set to the rear of its intimate, inviting development, this contemporary address brings designer freshness to a sensational Yarraville setting. Cool clean lines and contrasting tones of charcoal and cream create a striking first impression for a townhouse where the exterior style is emphatically matched by the indoor allure. Timber floors define the downstairs living and dining areas that include efficient reverse cycle heating/cooling and an open-plan kitchen featuring stainless steel appliances and sleek cabinetry. Decked dimension and a courtyard backdrop contribute ideal outdoor appeal to a property offering two upstairs bedrooms, each with its own heating/cooling and built-in robes. Two bathrooms including the main bedroom's ensuite enhance the alluring upstairs accommodation. Under-cover parking and a secure garden storage shed are convenient accompaniment in a location that lets you reach Yarraville village, trains to the city, bike paths, parks and the Westgate with ease.
