## Contact agent for price indication

This home was designed for the extended family. Whether that be children that haven't flown the nest or parents that need the comfort of family close by. This home has so much to offer. Being a split level home - the downstairs can be configured to suit your needs. A one bedroom Granny flat or even a 2 or 3 bedroom apartment. The design can be reconfigured to suit your specific needs (as this is a house yet to be built). The Estate is only 14 lots and situated close to all amenities. Already there are some substantial homes in planning - so a great place to live and a great investment. Our house are designed in an interactive 3d package. You are welcome to come and visit us at the on-site office and walk through the plan and better visualise how it looks in 3d. It is also a good opportunity to walk over the land and take in the distant mountain views. The centre is open Wed, Thurs, Fri, Sat from 10-4. Call for a list of inclusions or to make a time to catch up. This one truly is unique. Floor plans and images are indicative only, conceptual in nature and subject to change. Floor plans and images may depict fixtures, fittings, inclusions, furnishings, pools and or other products that are not included in the house design or costings. Property Code: 289
