Literally just up the road from the surf and sands of Town Beach. This affordable holiday investment could give you the start you have been looking for. Being a pure holiday investment (no owner occupiers or long-term renters allowed) means the pooled income operates uninterrupted all-year-round, maximising your future returns. Owners can also enjoy up to two weeks free accommodation per year (owners pay the cleaning costs only). Well-kept inside and out, this first floor, two-bedroom unit features a light and bright interior with a well-sized kitchen, air-conditioning, open living and a tidy bathroom. The complex is very well presented and maintained by its meticulous onsite car-takers and offers off-street parking, a sun-drenched, large swimming pool, outdoor barbecue area and lush tropical gardens. Highly rated by both returning and new visitors, being walking distance to the beach and restaurants, the yield is returning to pre-covid levels so now is the time to buy and take advantage of our booming local economy.
