\$880 PER WEEK

Located in a low density of 6 townhouses complex, literally 2 minutes walking distance from the waterfront, this property has everything to offer. As you walk through the front door you will be astonished by the abundance of space and natural light. The ground floor is all for living, with a generous separate living room leading onto the huge kitchen, featuring Bosch appliances, plenty of storage, along with ample bench space including large island. A separate bright dining area opens onto a large low maintenance courtyard with ample room for year-round entertainment. The ground floor also includes a powder room and a large separate laundry with direct access to the outdoor area, as well as a secure garage with internal access and additional car space. Upstairs you'll be impressed by the size of the large master suite with walk in robe, good sized ensuite and a private balcony, while the other two double bedrooms have BIR and access to the front balcony. Serviced by a large central bathroom, including separate shower and bath. Ducted heating throughout and air con complete this fantastic townhouse. You can't beat this location within central Williamstown, just a short stroll to its array of waterfront restaurants, Gellibrand Park, as well as Williamstown Primary School and train station.
