This outstanding property is located within walking distance to the Cygnet township and, as well as boasting a generous quarter acre block, it also enjoys tranquil views that extend right over Port Cygnet, through to the township, and capture all the hillsides beyond it. This spacious family home provides four very generously sized bedrooms, three of which have built-in robes and the master offers a walk-through robe along with a very well proportioned ensuite. The beautiful open plan kitchen living and dining area is flooded with light and provides easy access to the large deck. This space is ideal for entertaining and thanks to the westerly aspect, it's the perfect vantage from which to enjoy the long Tasmanian sunsets. The living room houses the freestanding wood heater and the home enjoys the convenience of a reverse cycle as well. The kitchen overlooks this grand lounge area and provides stone waterfall benchtops, plenty of storage and workspace as well as a breakfast bar, for more casual dining. The fourth bedroom can be used as a second living room if preferred, as it adjoins the main lounge area and has its own private access to the deck. A double garage with an automatic roller door allows dry and level access inside and there is an additional workshop space under the house, which would make a fantastic home gym or separate office. The property sits on over 1000m² and enjoys town services. Phone or email for further information and to schedule your appointment to view.
