Peacefully situated at the end of a coveted cul de sac, this superb example of midcentury architecture including beautiful 60's and 70's built-in furniture is surrounded by stunning Japanese gardens providing an idyllic setting for immediate family enjoyment while also offering enormous scope as the site for a new home or boutique development (STCA). First time ever on the market, timber floors flow through the entrance hall to a generous home office and expansive living and dining room both opening to beautiful, lush Japanese gardens which have featured in numerous magazines including House & Garden. A well-equipped kitchen includes a casual dining area. The spacious main bedroom with walk in robe and bathroom/en suite and a second double bedroom also opens to Japanese gardens with courtyard, ponds and waterfalls. A light-filled family room with kitchenette or 5th bedroom, fully tiled bathroom and two large upstairs bedrooms with robes and additional toilet offer a teenage haven or flexibility as a self-contained apartment with separate entrance if desired. Occupying an enviable location walking distance to prestigious schools, Glenferrie Rd's vast array of shops, restaurants and cinemas, Glenferrie station and trams, this charming home also includes alarm, ducted heating, RC/air-conditioner, versatile studio, laundry, workshop, toolshed, double garage, auto gates opening to additional secure off-street parking. Land size: 801sqm (approx.)
