\$565,000 - \$585,000

From the street this property is instantly a place you would be proud to call home. Lovely street appeal it is a sweet looking home, with lawns and gardens presenting as neat as a pin. A pleasant surprise immediately from the front door is the internal space. This home is deceptively spacious inside, having a larger than expected open plan living area and quite generous sized bedrooms all with built-in wardrobes and ceiling fans. The kitchen is modern and overlooks the expansive covered outdoor living space that stretches the entire length of the home across the rear, and the bathroom contains a separate shower and bath for those with little ones, or those that just enjoy a soak. There is air conditioning and a gas point for a heater, and tv points both inside and out. Covered off street parking is provided by the carport which is secured behind gates, a large garden shed provides lockup storage and there is excellent sensor lighting around the home. A low maintenance property that has been maintained well internally and externally, and would be perfect for first home buyers, investors, or downsizers.
