\$1,500,000 - \$1,600,000

Demonstrating a commitment to contemporary style and function, in a free-flowing format that is enriched with quality inclusions, this stunning four-bedroom plus study residence was designed for the modern family. A decked boardwalk with lighting guides you down to the home's double front doors, where gorgeous Spotted Gum floorboards adorn its entrance hall. Three spacious living zones feature within the home, including a theatre room, a rumpus and an open plan family/dining area that is crowned by a statement kitchen with a 900mm SMEG upright cooker, a Blanco rangehood and dishwasher, glass splashbacks, stone countertops and a waterfall-edge breakfast island that is lit up by a trio of pendant lights. A private deck with feature screens and built-in bench seats perfectly aligns with two of the zones, facilitating flawless integration between indoor and outdoor entertaining. The secure backyard beyond offers ample play space for little ones and pets, and contains several produce growing beds. Desirably configured accommodation consists of separate sleeping wings for parents and children. The front double door-accessed master suite boasts a walk-in wardrobe and a chic twin-basin ensuite. A study/optional bedroom also rests at the front of the home, while the remaining three bedrooms with built-in wardrobes, a family bathroom and separate toilet, are all tucked away off a rear corridor. Quality additions that enhance the home include walk-in and built-in linen press cupboards, ducted heating and refrigerated air conditioning, plantation shutters, block-out blinds, external security shutters (on two windows), instant hot water, smart switches plus a remote double garage with internal access. Idyllically positioned, this home's future occupants can enjoy close proximity to bus stops, reserves, multiple schools, the newly revamped Blackburn Square, Brand Smart, Whitehorse Road shops and eateries, Mitcham and Nunawading Train Stations plus the Eastern freeway.
