Character meets creativity throughout the inviting single level spaces of this beautifully bright, perfectly private home just one block from The Strand and the water. Northern light flows into welcoming living and dining areas from a covered central patio, designed so that alfresco entertaining and indoor enjoyment are seamlessly linked while a kitchen that occupies a spacious zone of its own is complemented by stainless steel appliances, stone bench-tops and plentiful integrated cabinetry. The mood is modern, the look is alluring, the effect leaves a lasting impression. Two double bedrooms, including a main bedroom with a walk-in robe, make their own contribution to a design that delivers next level single level style, served by an elegantly appointed dual vanity bathroom. Polished floorboards, a wall mounted gas fire-place, a separate laundry, the patio's fan and a secure garage further enhance desirability of a residence that represents the ideal approach to downsizing – in addition to its equally significant broader appeal.
