\$745,000

As sound as the day, it was built in the mid-80s this substantial family home has been loved and lived in by the one family since. Offering an incredible amount of accommodation, it is also on an expansive 925 sqm of magnificent land meaning you not only have the large home but so much yard to complement it. So many features here but not withstanding the dual living zones, 2 bathrooms and huge bedrooms once you step outside the real party begins. A massive undercover entertaining area ensures all year-round outdoor living but what is perched up in the backyard is the true bonus. Not only is there a fully bricked garden shed that could easily be converted but a studio ideal as a home office, sleepout or games room for the big kids. The double tandem garage finishes off the impressive list. The home is stretched across the land meaning the backyard space is maximized and provides an imposing façade to this gorgeous home in a great location. And speaking of location it is a quiet street but so close to schools, transport, and shops yet only a short drive to our magnificent beaches. This definitely has the lot. An immaculate home, so much accommodation and built to standards that perhaps we don't get anymore. This should be it.
