Tiles extend out on to the rear deck for easy cleaning and maintenance. Heading downstairs, the lower level is masonry block construction with two car parking and automatic roller door access. The area provides an extensive space which could be used as rumpus room, workshop, additional storage. An internal laundry is also located on the lower level. Walk through to the rear paved entertainment area positioned beneath the deck and out into the landscaped gardens. Privacy is provided on three sides by Colourbond fencing and the house is powered by a large 10kW solar system. All that is left to do is to unpack and put your feet up.
