\$650 per week

This delightful home has real appeal, enjoys a lovely northerly aspect, set directly opposite a winding path with large shady tree outlook, really offers peace & tranquility here that is sure to impress. Boasts: Well-designed kitchen with good cupboard space which overlooks spacious open plan meals/living area with high ceilings & reverse cycle split air-conditioning unit, sliders lead to a wonderful private decked alfresco with cafe blinds making a terrific outdoors sitting area to relax in all year round or why not sit out on the front verandah soaking up a gorgeous outlook. Separate front TV/reading room with high ceilings being the ideal 2nd living zone, is away from the main hub of house, would be a quiet spot when wanting some ME time & there is a study near by too. Large master bedroom with walk in robe, own ensuite with toilet, plus bedrooms 2 & 3 are queen sized, have robes, ideally set at back wing of house along with the 2nd bathroom, laundry, plus a separate toilet. Attractive timber look flooring flows thru-out much of the home, the decor, drapes, lighting & carpets are nice, with presentation overall being to a high standard, as the owner has really loved the home keeping it well maintained. Pretty established gardens, secure full fencing surrounds with front gate, it would certainly make the perfect lock up & leave abode if you were to go away given it is on a very low maintenance 329m2 cottage block, insulated, gas HWS connected to the mains, has a double remote rear garage with handy shopper's entry.
