\$450,000

This gorgeous seventies, north-facing, solid hardwood "bungalow" has been moved onto the island and given a full reno, inside and out! Refreshingly modern inside with all the mod cons and attention to detail it deserves. Two good sized bedrooms and a full size study with storage, built in desk, air-con and fan. Fabulous brand new kitchen with dishwasher, soft close cupboards, huge sit down island bar. All original casement windows, screened through out and adorned with white wood blinds and plantation shutters. Newly painted inside and out, white inside and a lovely soft green palette on the outside. Freshly sanded and polished hardwood floors throughout. The property has been fenced, sectioned, gated and landscaped. On a corner block, there are three driveways on the two street frontages. There is a 3 x 3 shed on a cement slab with power connected. There is a container which is negotiable or will be removed. The lounge, kitchen, study and main have been virtually staged. Please give me a call now, won't last long!! KERRIE 0401 575 274
