\$545,000

This unique architecturally designed home is certainly one that stands out in the area and what an area it is, Questro Glade is a sought after cul-de-sac that is quiet and just a short stroll from popular swimming/snorkeling beaches. The angles of this home combined with the color scheme give it a 'funky' vibe, an easily lived in home that is warm and welcoming with hard wearing tiles downstairs and insulating carpet upstairs this home needs to be inspected to be truly appreciated. Things you should know: *Being fully fenced the main entrance is to the South with a timber entry door leading into the open living area and "WOW" the high ceilings/angles, windows and color is a pleasant surprise. *The open-plan lounge dining and kitchen area is spacious and welcoming with the Kitchen being inclusive to the living zone and boasting dishwasher, electric stove and built in pantry, the large window to the ground allows plenty of natural light and is a great view to the entertaining area outside. *The two minor bedrooms to the East are separated by an activity/TV room with the Laundry, shower & toilet situated together with easy access to the Northern patio. *Upstairs the master suite is spacious and open with heaps of storage and a verandah that's East facing, the sunrise would be magnificent from the privacy of your own bed. The en-suite is functional and the toilet is separate in the en-suite. *With alternative verandah's either to the South or the North there is plenty of room for entertaining plus the reticulated garden's boast 2 established Mango tree's with retained garden beds to finish the picture. *With dual concrete driveways access to the rear 8x6 powered shed is achieved down the Northern side of the property and with a sink behind the shed it doesn't matter what your hobbies are you are well catered to. * To arrange your private viewing of this home give me a call anytime Cheryl 0427 981 955 I have been selling real estate in Kalbarri for 22 years and I'm happy to help you with your property journey.
