Preserving the timeless allure of its original elements while embracing an exquisite modern makeover. This 4-bedroom family home with an impressive 10.0 x 10.0m powered workshop complete with its own sub-board on a vast 1,364 sq. metre (approx.) allotment, delivers a sanctuary where the past meets the present, weaving modern romance into every detail for a living experience that is second to none. Post-and-rail fencing and native landscaped gardens precede an evocative brick facade, hiding a home of timeless elegance and modern luxury. Chevron parquet European Oak floors flow into a sunken lounge where a bespoke granite fireplace evokes a romantic warmth, standing in perfect contrast against crisp walls and ornate decorative ceilings. Culinary dreams come to life in the artisan kitchen, where stone waterfall counters envelop integrated cooking appliances and a farmhouse basin, linking effortlessly to the covered and sealed alfresco area that offers a picturesque backdrop over the expansive lot with its playground and cubby house. Four bedrooms are headlined by a main bedroom with a twin-vanity ensuite, boasting bespoke finishes echoed in the family bathroom and fitted laundry. Additional features include refrigerated heating and cooling, remote entry gates, LED downlights, a double carport, and the perfect family-oriented location, moments from Benton Junior College, Bentons Square, The Briars, bus routes and the bustling Mornington Main Street.
