**\$660,000**

For the first time being offered to the market, this builder's own home was thoughtfully designed and constructed by a true craftsman with family living at the forefront. 3 generous bedrooms with ensuite to master plus study/4th bedroom are complemented by 2 tremendous living zones. The spacious open-plan kitchen features solid timber cabinetry that adjoins the dining and formal lounge while a large rumpus/snooker room is a feature as you walk through the formal entry. Year-round entertaining is ensured with a large, private all-weather pergola with access directly to a convenient 3rd bathroom plus a smaller courtyard that opens onto the endless gardens and overlooks the substantial parklands surrounding House Creek bordering the northern boundary of this wonderful home.
