Home with well-thought-out design. The large Alfresco area is likely a great place for outdoor entertaining or for relaxation. Inclusion of the four bedrooms provides living space, with the master the master bedroom featuring en-suite and walk-in robe, adding a touch of luxury and convenience. Second bedroom having a walk-in-robe is a nice feature that adds to the overall comfort of the home, and the built-ins to the other two bedrooms offers practical storage solutions. The inclusion of a study is excellent for those who need a dedicated workspace or could be used as another living area. Home theatre is likely a popular spot for entertainment, providing a comfortable and private area for watching Movies or your favourite TV shows. The family and dining room areas likely to serve as central gathering spaces for meals and everyday activities. Chefs kitchen including a 90cm Smeg oven and gas cooktop make it a dream to cook in. All this and including ducted air conditioning for your summer and winter needs. Large Home and Large Block is excellent for the growing family in the lovely Village of Kanmantoo.
