This Spacious weather board family home will impress on any inspection. Featuring 3 double bedrooms, large lounge, country style kitchen, combined bathroom and laundry and 2 split system A/C's. In 2022 the current owner rewired the property including a new switch board, replaced the hot water service with a heat pump and installed a 6.6kw solar system which has her constantly in credit. Outside there is a single carport, single garage with a concrete floor, garden shed and a native garden being established. The old laundry was also turned into a handy storage room and there is also the convenience of 2 toilets. The property is only a short walk to the main street shops. The home is currently being repainted so the photos will be updated as the painters work their way around the house.
