A sub-penthouse with a monster view that should never be underestimated. 10' ceilings plus one hundred and eight square metres of internal space. Add the fabulous verandah of some twenty two square metres plus two car spaces. Yes there are also storage cages. Sublime finishes with ducted air conditioning and double glazing completing the picture. Oh and power and water to the verandah. Horizon is a development specifically designed for owner occupiers. Commercial suites have no provision for grease traps or extraction fans and retail is not a permitted use. As a result Horizon is some ninety percent owner occupied. Pet friendly, private resident lawns and gardens as well as gym and residents lounge. Stroll the harbour foreshore, walk some 800 metres to the transport interchange or Marketown for your shopping. This apartment is as rare as hens teeth!
