Architecturally designed by Tina Lindner, featuring custom lighting by Japanese artist Kohtaroh Matsuura, European Oak timber flooring from George Fethers and Fibonacci terrazzo tiles, this home is a stunning collaboration of the aesthetic, the artisan and the alluring. Japanese made mosaics tiles by Artedomus add yet another layer of elegance and excellence to the bespoke dimensions of an address where sublime living and dining areas are served by the kitchen's Subzero Wolf appliances, Liebherr fridge, freezer and wine fridge, dual dish-washers and Zip tap chilled and sparking water. Hand curved natural stone benchtops in marble and granite make their own memorable contribution to spaces that flow to a landscaped outdoor areas distinguished by brilliant Accoya timber decking and a gorgeous gas heated pool. 4 bedrooms and 4 bathrooms, including 1 of each on the downstairs level, deliver ultimate luxury that's entirely in keeping with a home enhanced by 4 zone heating and refrigerated cooling, a Lopi gas log fire and integrated sound system. A 4th bathroom accompanies the gym/office above a secure double garage that incorporates 3 phase power with electric vehicle charging. One of a kind, in a class of its own, walking distance from Newport Lakes Primary School and Newport Lakes Reserve.
