Price on Application

This stunning homestead is located in the agricultural hamlet of Newry. Set on approximately 7 1/2 acres and amidst a magnificent English treed garden, the property offers any prospective purchaser the opportunity of becoming the lord of the manor. The double storey, 5 bedroom brick home was built in the early 1900's and was once part of a much larger farming property. As well as the 5 bedrooms, 2 living areas, a spacious kitchen, north facing sunroom, and a stunning dining hall. The artisans and tradesmen from yesteryear have employed long lost craftsmanship which include pressed metal ceilings, polished timber floors, solid plaster walls, exquisite fret and timber works and prominent use of stained glass. This house could easily become your home, but equally for those who want a country getaway or to run an upmarket Bed & Breakfast, this masterpiece covers all bases. Outside the grounds and garden are immaculate, with an emphasis on established English species. A large lagoon surrounds the property and is inhabited by a host of birdlife. Attached to the residence is a large brick double garage, a 5 bay machinery shed/workshop, a garden shed and sundry shedding complete a superb finish to the outdoors. Inspection of this property will not disappoint and rarely, if ever a property of this quality and finish gets offered to the market.
