\$645,000 - \$665,000

Set on a well elevated parcel of land this beautiful home is move-in ready and yet lends itself to further modification and renovation. Don't miss the opportunity to secure a home that has been held in the one family for so many years. There are three bedrooms to the front of the home, all with generous old-fashioned proportions. The master has a ceiling fan and direct access to the family bathroom - which has 'Jack and Jill' access. The bathroom is functional and spacious and there is a separate powder-room outside near one of a number of entertaining areas. The kitchen/dinner is warm, inviting and has a European-style laundry in the corner along with two separate windows to the north. There is an alfresco dining area which leads to the back yard and the modified garage with loft space. The accommodation options are wonderful with a growing teenage family and the home is heated with a slow combustion wood stove. The private back yard is a hidden gem with various out buildings, yards, garden beds, play pens for young and old and a range of fruit trees and other shrubs. The inspection time will truly be worth it. Please call Tim anytime time to inspect as we believe there will be strong interest.
