The owners of this property have truly captured the surrounds and set their shipping container residence right in amongst the rocks. Relax and enjoy the amazing deck area while capturing the spectacular views over Glen Aplin valley and further north towards Severnlea. The craftsmanship in this build has to be seen to be believed right down to the stone bench tops in the kitchen and features two bedrooms, both with ensuites (one upstairs and one downstairs), giving both upstairs and downstairs their own covered entertainment areas. You also have the option to use the current residence as an AIRBNB. Now let's talk about the block - other than the truly amazing views, you have three paddocks, all sheep proof, watered by a dam and weir on creek and set on 15.11 hectares. This lifestyle property lends itself to so many uses and it is only limited by your imagination. To arrange an inspection, contact Scott Mann on 0427 814 444.
