This untouched parcel of land is prime for the taking, with the option of two potential sites, either end of the block, separated by the seasonal wattle creek. Build your dream home at the front and shed at the back for ease of open space and versatility. Don't be put off by the Pyrenees Hwy, with the new speed limit on the road allowing for quieter moving traffic. Backed by the Chewton Bushlands, this picturesque block wont last long. Its only a short 10 minute drive in to the centre of Castlemaine and with ease of access to the Calder freeway to both Bendigo and Melbourne.
