\$1,155,000

A true tree change is waiting with this off grid home. Surrounded by greenery, on a three quarter of an acre property, in a quintessential rural setting, this property has all you will want to live and possibly work with tranquillity. A somewhat rustic three bedroom home that has two living areas, a huge undercover carport that doubles as an entertainment space. Solid brick home that is light filled and comfortable in so many aspects. Room for a pool and a work shed that can accommodate most of ones needs. Council fees are approx \$2100 and the rest of the utilities are off grid with the properties water tanks and solar bateries supplying enough to get you through any situation. This is one of the most sought after areas on the coast, away from the ever increasing coast hustle.
