\$550,000

The beautiful "Lenna" is now available! This amazing property built in approx. 1862 is something rather special! This stunning heritage listed home sits on just over 3200m² with two other buildings, giving endless potential! The main house is a large double story building with seven rooms, all are currently empty which allows the purchaser to design the flow of the home to suit their lifestyles. Two existing chimneys have been restored and a third is on the property which will need to be re-erected. Works on the new foundations and floorboards on the ground level have recently been completed alongside new Gyprock ceilings and wiring throughout, giving future owners a solid platform to complete the renovations. The turn of the century church located at the rear of the property is also an amazing feature, relocated from Beulah this stunning little church has overflowing character and allows for a base to complete the upcoming renovations while living on site. "Lenna" was originally built by James Fenton and is one of the earliest homes to be built in Forth, steeped in history and charm this gorgeous property is truly one of a kind. Era homes like these do not last long, for further information or to book a private inspection please contact the listing agent Kurt Knowles today!
