You can pay for a quick trip to Bali or Queensland, but how about a never-ending holiday at home? That's the dream from this hideaway haven and its tropical resort pool precinct. For relaxed family living, there's even a shady patch of grass perfect for picnics, all secured behind high fences and screening trees around the 712sqm (approx.) corner. Ideally suited to dual family living, the double storey design offers zoned bedrooms, bathrooms and living space on both levels, appealing to live-in relatives (both young adults and seniors) wanting some independence. Magnificent sized living space offers room in which to relax and entertain, with a dedicated formal lounge under towering ceilings, a tiled family room off the kitchen, and an entertainer's rumpus with wet bar opening directly to the alfresco area. The upper level adds a games room and huge terrace overlooking the pool, with a master suite featuring its own spa bath ensuite – ideal as a private parent's retreat. A spacious kitchen includes updated European appliances, with 6000L in rainwater storage, a workshop behind the garage, and glass fencing around the pool among the impressive inclusions. With its entrance via Irene Crt, this family wonderland is ready to welcome its next lucky residents to a leisure-filled lifestyle close to Jells Park Primary, Wheelers Hill Secondary, Caulfield Grammar, shopping at Wheelers Hill, Brandon Park and The Glen, with Eastlink to get you to bayside beaches in 30mins.
