Welcome to Windsor Park, an extraordinary historic property that exudes elegance, space, and endless possibilities. This estate seamlessly combines impeccable modern finishes with a rich historical heritage, showcasing a deep commitment to both preservation and renovation. Comprising a grand main residence and an additional self-contained two-bedroom apartment, this property provides an abundance of possibilities. The main home epitomises a perfect fusion of contemporary sophistication and timeless charm. It boasts multiple living areas, including a splendid ballroom, a graceful drawing room, and an inviting living/dining space. The versatile layout can be configured to create a grand single-family residence with its four spacious bedrooms, three designer bathrooms, and a chef's dream kitchen featuring dual dishwashers, high-end finishes, and top-of-the-line appliances. Meticulously designed, this home seamlessly blends the tranquillity of its lush gardens with the daily lives of its occupants. The large windows and soaring ceilings infuse every corner with a sense of openness and natural light, creating a serene and comfortable atmosphere. The property's original features, dating back to 1837, are true treasures, with polished floorboards, ornate ceiling roses, French doors, and picture rails adding to its allure. The optional self-contained guest wing has a separate entrance off the front verandah. The space boasts its own bathroom and kitchenette which is ideal for visitors or holiday lettings but could also be regarded the master bedroom. A separate income-generating apartment with its own parking and entrance is a valuable addition to the estate. This fully self-contained two-bedroom residence presents an excellent opportunity for housing extended family members or offering short-term and long-term accommodation options. The sprawling grounds of Windsor Park feature lush lawns, vibrant garden beds, and a variety of mature trees, creating a private and picturesque oasis. The backyard offers ample space for relaxation and play, providing an idyllic setting for children and pets. Additionally, a studio within the grounds awaits development, offering endless possibilities for customisation. Windsor Park holds heritage significance and is deeply rooted in its local and national history. This is an exceptional opportunity to own a piece of Tasmania's rich history while enjoying the best of modern living.
