\$389,000

This unique Spanish style home is definitely one of a kind! Built around 1987, the double brick home boasts numerous arches throughout, raked ceilings and textured render on all of the walls - it wouldn't look out of place in the Mediterranean or Latin America. A stylish new kitchen has been recently installed, with plenty of bench and cupboard space included, while the bathroom has also been nicely updated. The lounge overlooks the dining/kitchen, and also a large sunroom on the North side of the home, which could be converted into a fourth bedroom if needed. A central evaporative aircon provides cooling, while a slow combustion fireplace is ready to keep you warm this winter. With a solar hot water system, and large solar power system, the power bills should be kept at a minimum. On a half acre block, the property is quite well shaded by a number of gum trees. The massive above ground pool provides a great spot to relax and enjoy the outlook in the warmer months. Alongside the house are a few handy workshop/storage areas, plus a separate single car shed, constructed out of stone and brick. All of this is ideally located only 800 metres from the York IGA and main street shops. To view all the available photos, please visit the Wheeler's York Realty website.
