High end, yet cosy. The photos you see are untouched, no editing, no enhancement. This property was purchased a few years ago, and completely renovated from floor to ceiling. Recessed lights, new fans, air-cons, new lush carpets in the bedrooms, and the extraordinary kitchen and laundry is only the beginning of this transformation. Taking a stroll through the established gardens feels like a different world. Extra care has been taken with plants and trees at strategic places to make the rear garden an oasis of relaxation. Whether you want to enjoy a cuppa in the peace and quiet, or invite the family for a bbq, every bit of space has been used and designed with love and care. It was hard to put a price on this one, as the feeling you get when walking through and admiring it all, is priceless. Book an inspection now - it's worth your time. Property Code: 1473
