\$400,000

This three bedroom home with study, that is located on a 3026 Sq.m. (approximately) block of land is amongst similar land holdings. The property is adjacent to a channel where a water license may be obtained (subject to approval). The home has solar power, a good sized garage/shed, carport, and a chook pen. The house has not been completed entirely, but this would make an ideal project for either a weekend accommodation or a permanent home.
