The Freshwater is one of our largest designs, the main bedroom has a separate ensuite and spacious built-in robe. One other bedroom and a guest bathroom offer space and privacy. Among the many unique features are the dual courtyards providing two alfresco options. Sliding doors from the open plan kitchen & dining open onto a large entertainment terrace are ideal for year round use. The oversized single garage guarantees extra storage and has internal access. A well thought out design, this home ticks all the boxes. Bonus extras include ducted air conditioning and umbrella awning to the second courtyard. This home provides all the elements for relaxing, comfortable and easy care living. Ocean Club Resort has a warm sense of community living, and only moments to shops, eateries and beaches.
