Located on approximately 10.5 acres (4.2ha) only minutes from Portland you will find this incredible new build perched looking over the stunning acreage. Built in 2022 by Mackon Homes, this brand new home just needs a few finishing touches but overall has been built to the upmost quality. With dual access from Sharrocks Road and Spinks Road, the home offers one of the most incredible and expansive living rooms with a cathedral style ceiling and polished concrete floors and a feature double sided wood fireplace cleverly placed in the middle of the room. This space is the heart of the home and offers ample room for the whole family and incorporates a beautiful kitchen with large island bench, modern and quality appliances, ample bench and cupboard space and massive butlers pantry that leads to the laundry. Expansive double glass doors open up to the undercover area at the front of the north facing home so you can sit back and watch the kids play in the dam or ride there motorbikes or horses. The impressive master bedroom is huge and includes a walk through wardrobe and ensuite along with sliding door access outside. At this end of the home is also the study or fourth bedroom. The other wing of the home is ideally set up for the kids with another living room and two additional bedrooms. Plus there is a separate powder room and luxurious main bathroom. Rainwater is well catered for with a 115,000 litre tank plus there are 2 seasonal dams. A double garage and double glazed windows complete this incredible package. NB: Red boundary lines are an approximate only.
