Designed so that all the spaces a family desires are complemented by luxurious, low-maintenance excellence, this superb contemporary home is just one block from the water, walking distance from parks and within easy reach of Altona Primary School. Hamptons inspired external lines create a beautiful introduction to an inside story that features substantial living and dining areas and an open-plan kitchen with a walk-in pantry. Stone surfaces, an island bench and soft closing cabinetry convey the commitment to quality that's evident in every space while an elegant alfresco area invites you to entertain against a landscaped backdrop. The choice of upstairs or downstairs master suites in a 4 bedroom, 3 bathroom format highlights the flexibility of a home where a generous upstairs retreat represents an ideal kids' zone. Each bathroom is fully-tiled, faultlessly finished, perfectly presented and enhanced by the presence of a downstairs laundry and separate powder room. Heating, cooling, timber floors, plush carpets, clever storage, a secure garage and convenient additional parking - the list of lifestyle attractions continues to define an address that features all the attributes of a family home for today, tomorrow and a fabulous future.
