This may be a one bedroom unit but just have a look at the benefits that are on offer. The current owners decided that they didn't need 2 small bedrooms so they created a 3.5m x 3.3m master bedroom with an adjacent and spacious walk in dressing room and the result is perfect. There is plenty of room for a study desk and the room benefits from split system air conditioning. The lounge also offers split system air conditioning and vinyl plank flooring and is adjacent to the separate kitchen area. A huge bonus to this property is having street frontage and a double garage that you do not see very often with a unit in this price bracket. Great value buying!
