This boutique 1 bedroom apartment, is perfect for the downsizer, investor or first home buyer. The development has recently experienced major works, with a full colourbond roof, all new aluminium windows, exterior rendering and painting with the garden areas all being professionally landscaped. Set well back from the street in a block of only eight, this terrific first-floor apartment offers a light-filled interior, due to its northerly orientation! The property showcases an open plan lounge/dining area, spacious updated kitchen featuring stainless steel cooking appliances with plenty of storage options, the spacious bedroom (with walk-in robe) and ensuite bathroom is situated at rear of the property, separating it nicely from the lounge/dining area. An intercom/secure entry system allows peace of mind and total security, a secure parking space is easily accessed via remote-controlled roller door from Buckley Street. Ideally located in a sought-after pocket close to Queens Park, Puckle Street shops/cafes, easy walk to Essendon Station and the 59 tram to the CBD, is right at the door step, easy access to all major arterials completes the package.
