This unit is in a well established block, with long term existing occupants. The unit has one bedroom with a built in robe, and a very functional galley style kitchen. There is a split system for heating and cooling which comfortably heats and cools the entire unit. The bathroom is combined with the laundry. There is a nice rear area however this is shared and not secured. Only moments away from the main street this is a convenient and quiet location. Applications are required prior to viewing the property.
