Yes, this lovely out of the way unit is a little dated, however it has been professionally cleaned from top to toe and is ready for you. Being at the very rear of the unit complex is an advantage as it is very quiet and private. Having a small secure courtyard, lovely veranda's both front and rear to enjoy a cuppa, the unit comes with a newer oven with gas cook top, a split system for heating and cooling along with a new ceiling fan in the bedroom for just a little more comfort in the hotter months. The existing occupants that live here are very respectful of each other's space and enjoy the peaceful environment offered. NOTE: Applications are required prior to inspecting.
