\$1,099,000

A townhouse where the allure ascends over each level in a design that peaks with a sensational view of the city skyline, this dynamic modern residence brings brilliant ideas together to form a fantastic partnership. This three bedroom, three bathroom format begins with two ground floor bedrooms, each with built-in robes, and two attractively appointed bathrooms including an ensuite. The polished floorboards and balcony appeal of the upstairs living area are complemented by a kitchen/dining space that's separately zoned and stylishly equipped with stone benches, stainless steel appliances and sophisticated cabinetry. The top floor represents a retreat of exceptional refinement featuring a substantial main bedroom beneath a cathedral ceiling, accompanied by its own ensuite and a terrace that offers an unforgettable city outlook – it's a sanctuary of style at the top of its game and the top of this great address! Secure parking for two cars adds outstanding convenience in a location where walking to shops, cafes and the water becomes a daily lifestyle delight.
